In materialize the government's expectation to solve issues pertaining to the community in line with the Government Transformation Programme (GTP) and also to touch the "heart and souls" of the rakyat with big fast results, National Anti-Drugs Agency also known as AADK has taken various proactive action thru our transformation program.

AADK has transformed its treatment and rehabilitation services by providing the utmost care to people who use drugs and their co-dependents in Malaysia through our 'open access services' that focus on psychosocial programme and medical and clinical treatment via the Cure & Care 1Malaysia Clinic (C&C). There are now 11 Cure & Care Clinics throughout the country (C&C Sungai Besi, C&C Kota Bahru, C&C Bukit Mertajam, C&C Tampoi, C&C Kuching, C&C Papar, C&C Tampin, C&C Jerantut, C&C Karangan, C&C Bachok and C&C Dengkil) which offers clients to undergo treatment for 1 month, 2 months or 3 months package and also as outpatient. As of [20 June 2013](#), 30698 clients have accessed the services provided either as inpatient, outpatient or came for referral and advocacy. Apart from that, AADK also provide the aftercare services to our clients at our Cure & Care Service Centres (CCSC) which operating at 52 locations nationwide. These facilities provide them a place to rest, meals, do their laundry and at the same time received interventions such as counselling and guidance and also medical and health treatment.

With regards to the issue that was raised in The Star on page 2 and 3 as of [27 June 2013](#), AADK would like to suggest and encourage to the community whom family members having an addiction problem to persuade and bring them for treatment and rehabilitation at our Cure & Care Clinic. However, if they refused to come voluntary, family can made a report/ complaint to the Detection and Monitoring Division, AADK for further action. For The Star readers who encounter with the same problem, please call us at 03-89112200 or send an email to [pro@adk.gov.my](mailto:pro@adk.gov.my)
